DESCRIPTION OF IMPACT

Impacted?	Impacted Media	Extent of Impact	How Determined
No	SOILS	TBD	TBD

INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

All fluids were removed from the partially buried produced water tank prior to excavation activities. Following the removal of the tank, a sample was collected from beneath the tank. Once soil samples results are reported, they will be presented to the COGCC.

PROPOSED SAMPLING PLAN

Proposed Soil Sampling

☒ Will soil samples be collected as part of this investigation? (Number, type (grab/composite), analyses, and locations of samples):

If field screening indicates hydrocarbon impacts to the soil and additional excavation is needed to remove the identified impacts, 4 sidewall samples and one base sample will be collected. These samples will be collected from the final excavation area once field screening indicates the removal of identified impacts. All soil samples will be submitted for COGCC Table 910-1 analytes.

Proposed Groundwater Sampling

☐ Will groundwater samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Proposed Surface Water Sampling

☐ Will surface water samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Additional Investigative Actions
