**2** CA# 141972

Corrective Action: Install long-term stormwater controls within the project area. Stormwater controls need to be selected, sized, installed, and maintained according to good engineering practices such as those described by CDOT in their erosion control manuals.

Date: 10/16/2020

Response: CA COMPLETED

Date of Completion: 09/28/2020

Operator Comment: Dug ditch around the edge of the location to redirect runoff from the erosion damaged fill slope to a natural and flatted drainage area on the northern end of the project area. Filled in and reseeded the area on the fill slope with erosion damage, and incorporated original terracing. Raked out channeling and rills on the cut slope.
