General Comment:

This is a follow up desktop inspection in response to a reclamation complaint. COGCC staff submitted a corrective action inspection on 9/23/2020 (Field Inspection Report (FIR) Doc. #697502016). In response to the FIR, the complainant had concerns about COGCC's assessment on access roads. After COGCC staff conducting further review, COGCC made changes to the reclamation requirements for access roads- Refer to Photo #1 and COGCC Comments for additional information.

This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.

Comment This location does not comply with Rule 1003. Crop growth within the interim reclamation area is not reflective of reference area crop growth. Refer to Photos 13-15.

Corrective Action Comply with Rule 1003 to perform additional reclamation activities related to failed crop growth.

Date _____

This might be referred to Enforcement; therefore, there is no corrective action date. Operator should conduct the corrective action as soon as possible. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.
