**RE: Colorado Oil & Gas Conservation Commission (COGCC)  
Vegetation Assessment Report (Final Reclamation Completion Notice)  
MCCOY-62N67W /5SWSW (Location ID: 331827)  
Crestone Peak Resources Operating LLC (Operator: 10633)**

Dear Mr. Tewkesbury:

Apex Companies, LLC (Apex) is presenting this letter to Crestone Peak Resources Operating LLC (Crestone) documenting the results of a vegetation assessment that demonstrates successful completion of final reclamation efforts, per COGCC Rule 1004, on the above-referenced location in Colorado. Attached is a topographic location map and a site map with additional location information.

Site visits, project correspondence and documentation, and the completed vegetation assessment confirmed that the location has been final reclaimed and returned by the landowner to cropland and agricultural use, with no evidence of unrestored subsidence over two growing seasons. Based on the results of the survey, final reclamation, as defined by COGCC Rule 1004.a and 1003.e (1), has been achieved. Photographs required by COGCC Rule 1003.e (3) are attached, along with the site diagram that illustrates the photo points.

On June 8, 2020, the site was visited and four photographs documenting crop establishment throughout the location were taken, along with one photograph illustrating reference area crops. Additional photos from July of 2019 are also attached, showing proper grade and cultivation of grass hay the first season following well abandonment and final reclamation operations.

Apex appreciates the opportunity to provide environmental consulting services on this project. Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

**Apex Companies, LLC**

A handwritten signature in black ink, appearing to read 'Adam Roll', is written over a light grey horizontal line.
