## SPILL/RELEASE REPORT (SUPPLEMENTAL)

This form is to be submitted by the party responsible for the oil and gas spill or release. Refer to COGCC Rule 906.b. for reporting requirements of spills or releases of E&P Waste or produced fluids. Submit a Site Investigation and Remediation Workplan (Form 27) when requested by the Director.

### INITIAL SPILL/RELEASE REPORT

Initial Spill/Release Report Doc# 400703360

Initial Report Date: 10/07/2014 Date of Discovery: 10/04/2014 Spill Type: Recent Spill

#### Spill/Release Point Location:

QTRQTR SESW SEC 29 TWP 6S RNG 97W MERIDIAN 6

Latitude: 39.489190 Longitude: -108.248070

Municipality (if within municipal boundaries): \_\_\_\_\_ County: GARFIELD

#### Reference Location:

Facility Type: \_\_\_\_\_ ☒ Facility/Location ID No 417559  
 Spill/Release Point Name: \_\_\_\_\_ ☐ Well API No. (Only if the reference facility is well) 05- -  
☐ No Existing Facility or Location ID No.

#### Fluid(s) Spilled/Released (please answer Yes/No):

Was one (1) barrel or more spilled outside of berms or secondary containment? Yes  
*Secondary containment, including walls & floor regardless of construction material, must be sufficiently impervious to contain any discharge from primary containment until cleanup occurs.*

Were Five (5) barrels or more spilled? Yes

Estimated Total Spill Volume: use same ranges as others for values

Estimated Oil Spill Volume(bbl): 0 Estimated Condensate Spill Volume(bbl): 0

Estimated Flow Back Fluid Spill Volume(bbl): 0 Estimated Produced Water Spill Volume(bbl): >=5 and <100

Estimated Other E&P Waste Spill Volume(bbl): 0 Estimated Drilling Fluid Spill Volume(bbl): 0

Specify: \_\_\_\_\_

#### Land Use:

Current Land Use: OTHER Other(Specify): Rangeland

Weather Condition: Clear

Surface Owner: OTHER (SPECIFY) Other(Specify): Oxy Private

#### Check if impacted or threatened by spill/Release (please answer Yes/No to all that apply):

Waters of the State ☐ Residence/Occupied Structure ☐ Livestock ☐ Public Byway ☐ Surface Water Supply Area ☐

As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

At approximately 11:30AM Sunday, October 5th, 2014, a release of produced water from a corroded piece of piping on the filter pot manifold assembly at the Oxy Central Water Handling Facility was discovered. The piping had lined secondary containment that held a majority of the spilled produced water. However, the secondary containment's capacity was reached and a portion of the produced water continued onto the working surface of the location. Oxy investigated and quantified the release at ~31 bbls of produced water. Oxy recovered ~ 24 bbls of produced water and estimates that the remaining ~7bbls was absorbed into the location's surface. The leak and subsequent release was contained within the Centralized Water Handling facility boundary. The spilled liquids were removed from the secondary containment via vac truck immediately after the discovery.

**List Agencies and Other Parties Notified:**

**OTHER NOTIFICATIONS**

| Date      | Agency/Party    | Contact      | Phone       | Response |
|-----------|-----------------|--------------|-------------|----------|
| 10/6/2014 | COGCC           | Stan Spencer | 970-6252497 | none     |
| 10/6/2014 | Garfield County | Kirby Wynn   | 970-6255905 | none     |

Was there a Grade 1 Gas Leak? Yes ☐ No ☒

If YES, enter the Document Number of the Grade 1 Gas Leak Report Form 44: \_\_\_\_\_

Was there a reportable accident associated with either a Grade 1 Gas Leak or an E&P waste spill or release? Yes ☐ No ☒

If YES, enter the Document Number of the Initial Accident Report, Form 22: \_\_\_\_\_

Was there damage during excavation? Yes ☐ No ☒

If YES, was CO 811 notified prior to excavation? Yes ☐ No ☐

| How was extent determined?                                                                                                                                                                                                                                                                                                                         |                                      |                                                     |                          |
| The released fluids within secondary containment were removed by a vac truck which gauged the liquid once it was loaded. The fluids that spilled out of containment left a visible spill path on the surface of the location. Dimensions from that spill trail were inputted into an Oxy spill calculator to quantify the released produced water. |                                      |                                                     |                          |
| Soil/Geology Description:                                                                                                                                                                                                                                                                                                                          |                                      |                                                     |                          |

|  | Based on review of information presented it appears that no additional spill reporting via the eForm 19 is necessary at this time, and COGCC approves the closure request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if surface and/or ground water is found to be impacted, then further investigation and/or remediation activities will be required at the site. |

| Environmental | Investigation and cleanup of this Spill/Release was not documented with the COGCC as soon as practicable, as required by Rule 906.a. This Supplemental eForm 19 Spill/Release Report was requested by the COGCC via email on December 20, 2019 (doc #2573067) as an effort by COGCC to bring operators into compliance with Rule 906.a Spill/Release cleanup and documentation requirements for historical spills/releases. COGCC Staff has discussed release reporting and documentation requirements with the operator to ensure that reporting requirements going forward are understood and followed. | 10/12/2020 |
