**RE: Vegetation Assessment Report (Final Reclamation Completion Notice)
COGCC Location Information: KIELIAN-64N67W /2NESE (Location I.D. 323638)
Operator Location Information: KIELIAN 2-1 WELL (API# 05-123-13305)
PDC Energy Inc. (Operator: 69175)**

Dear Mr. Porter:

Apex Companies, LLC (Apex) is presenting this letter to PDC Energy Inc. (PDC) documenting the results of a vegetation assessment that demonstrates successful completion of final reclamation efforts, per Colorado Oil & Gas Conservation Commission (COGCC) Rule 1004, on the above-referenced location. Attached is a topographic location map and a vegetation survey site map with additional location information.

Site visits, project correspondence and documentation, and the completed site assessment confirmed that the location has been final reclaimed. Based on the results of the survey, final reclamation, as defined by COGCC rules and regulations, has been achieved. Photographs exhibiting current site conditions are attached, along with the site map that illustrates the photo points.

On October 1, 2020 the location was visited and four photographs documenting current site conditions were taken. These photographs show that all ground disturbance activities relating to the Kielian 2-1 well have been completed, and all disturbed areas have been stabilized in such a way as to minimize erosion.

The landowner's designated final land use continues to be a storage yard. The disturbance area is within this storage yard and is being used to house various vehicles, equipment and supplies. The disturbance area is stabilized with perennial grasses and has a total percent plant cover of at least eighty percent (80%) of reference area levels, excluding noxious weeds, and has minimal slope. The area is kept as free as practicable of noxious weed species.

Sincerely,

Apex Companies, LLC
