DRILLING COMPLETION REPORT

Per Rule 308A, this form and all required attachments shall be submitted after completing the drilling operations to drill, sidetrack, or deepen a wellbore and after changing the casing and/or cement configuration of a wellbore. If any attempt has been made to test, complete, or produce the well, the operator shall also submit a Form 5A (Completed Interval Report) per Rule 308B. If the well has been plugged, the operator shall also submit a Form 6 (Well Abandonment Report) per Rule 311.

Completion Type Final completion Preliminary completion

Operator Comments:

The East Ault 10-18-19HC well, API No. 123-05-47066, located on this pad was logged from below kick off point at a MD of 7,676' up into surface casing to a depth of 500' with a Compensated Neutron – Gamma Ray Log. This log was run after discovery that an open hole resistivity log was not obtained from any well on the pad and is further outlined in our letter to the Director dated 10-9-20. After well Completion, the TPZ will be reported on the Form 5A if it changes from what is reported on this Form 5.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
