**Abandonment Verification**

The abandoned Off-Location Flowline was located within the jurisdiction(s) of the following local government(s).

Jurisdiction	County	Municipality
County	WELD	

**Description of Abandonment Verification:**

The OLF was abandoned in place per COGCC 1105.d.(2)D. Removal of this flowline would have caused significant damage to vegetation. The path of the flowline cuts across grassland used for grazing. Foundation actively tries to mitigate weeds in this area, but diffuse knapweed, Canada thistle, and field bindweed are already present nearby (see COGCC inspections). Weeds would germinate quickly in disturbed topsoil and the line is 3916' feet long. The natural vegetation above the flowline has grown back in entirety since installation of the line ~ 1990. The flowline abandonment was completed according to Rule 1105 under the supervision of a Colorado registered 3rd party PE ensuring the following:

- 1)Evacuated the flowline of any hydrocarbons or produced water to ensure the line is safe and inert;
- 2)Depleted the flowline to atmosphere pressure;
- 3)Cut the flowline's risers to 3' below grade or to the depth of the flowline, whichever was shallower;
- 4)Sealed the ends of the flowline below grade.
