General Comment:

COGCC Inspection Report Summary

On Friday 10/16/20 at approximately 1200, I, Inspector Scott Ramsey, conducted a routine inspection at TEP Clough 7, at Location # 311629 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year.

During this inspection the following possible compliance issues were observed:

- Riling and run on north west side of location behind separators, BMP's need to be addressed
- Chemical tank label at well heads is faded and is eligible

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
