General Comment:

On 10/12/2020, Reclamation Specialist Trujillo conducted an interim reclamation inspection at Caerus Piceance LLC's Battlement Mesa 26N-795 location in Garfield County, Colorado.

The following compliance issues were observed during this inspection:
1002.e.(4): Surface disturbance minimization regarding access roads.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Date _____

1002E. SURFACE DISTURBANCE MINIMIZATION _____ Fail _____

Comment It was observed in this inspection that there are three (3) Oil and Gas access roads leading to/from the Location; Doc. #400945215 identifies the road that travels south from the Location as the designated access road. The access road leading west to the PAD 271-BATTLEMENT MESA /26-14B (Loc. #416540), and the access road that travels southeast from the north end of the location are considered additional, unnecessary disturbances that do not comport with Rule 1002.e(4), and require reclamation. See attached photo document for additional information.

Corrective Action Conduct reclamation on the access roads pursuant to COGCC 1000 series requirements.

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment

Aerial imagery shows pad appears to be relatively unchanged since initial construction activities.

Though the southwestern areas of the pad do not appear to be needed for production activities and should be considered for reclamation, the current pad size and "areas needed for production operations" on the Location is not exceedingly unreasonable.
