Comment:

Operator has removed all equipment from location and is in-process of conducting final reclamation activities (i.e., recontouring). Refer to the attached inspection photos.

COGCC staff, Chris Binschus, met with an Operator representative, Jeff Schneider, and surface owner to discuss the remaining final reclamation activities.

Operator has to recontour the western and eastern location, and some portions of the access road. This work was scheduled to be completed October 2020.

COGCC staff will have to perform a future final reclamation inspection during the active crop during season to ensure compliance with Rule 1004 standards.
