General Comment:

COGCC Inspection Report Summary

On Friday 10/23/20 at approximately 1030, I, Inspector Scott Ramsey, conducted a routine inspection at Grizzly Tharp, at Location # 413567 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year.

During this inspection the following possible compliance issues were observed:

- Bmp's require maintenance (at entrance of location check dams need maintenance, sediment migration next to combustor)
- Lack of tracking controls
- Unused equipment (two(2) chemical tanks next to well heads)
- Staining of chemical next to chemical tank pump

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
