

JACKSON COUNTY ADMINISTRATOR  
WM. KENT CROWDER  
COUNTY OF JACKSON

FAX (970) 723-4706

P.O. BOX 1019

WALDEN, COLORADO 80480

(970) 723-4660

September 14, 2020

**Subject: SandRidge Energy Dissolved Air Flotation (DAF) – Vaneta 1-32SWD**

To Whom It May Concern:

Absaroka Energy and Environmental Solutions, LLC (AE<sub>2</sub>) is an environmental consulting company that assists SandRidge Energy (SDE) with environmental services concerning oil and gas operations in Colorado. AE<sub>2</sub> has provided Jackson County with several documents relating to the SDE Dissolved Air Flotation (DAF) unit that was utilized in 2019 for treating and disposing of flowback and produced water. The following documents were sent to Jackson County:

- Centralized E&P Waste Management Plan; Form 28 Permit Narrative Report
- Location figures including surveyed plats
- Figure indicating appropriate fire buffer and fire lane around DAF system
- Surface Use Agreement with applicable landowner
- Flowback analytical data
- Contributing oil gas well list
- Surface water map
- DAF design specifications
- DAF operational and maintenance manual
- SPCC Plan
- Colorado Oil and Gas Conservation Commission (COGCC) Form 4 Sundry/Financial assurance cost estimate

Jackson County has reviewed the aforementioned materials concerning the Vaneta 1-32SWD and associated DAF system, and finds that all applicable surface use, building codes, and environmental considerations are adequate and approves of the facility.

Sincerely,

Samantha Martin

Assistant to the County Administrator

970-723-4660
