General Comment:

On 11/2/2020, Reclamation Specialist Trujillo conducted an interim reclamation and stormwater inspection at Nonsuch Natural Gas' CSOC 697-14 Tank Battery location in Garfield County, Colorado

This inspection is also a followup to inspection #696201797 and #696201822 to document compliance with the following corrective action:
 -Identifying equipments use for production activities on the Location
 -Repair secondary containment.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules

Inspection #696201613 and 696201797 documented that the secondary containment BMP at the 200 bbl Condensate AST was insufficient, and required Operator to comply with Rule 906.d.(1).

It was observed in this inspection that the condensate tank has been removed from the Location. Corrective action is no longer applicable.

Area of the tank is considered "not needed for production", and is subject to 1003 interim reclamation requirements.
