Description of Corrosion Protection:

Field was constructed and in production prior to Ursa ownership. Ursa will inform the COGCC of records and or information updates as it becomes available.

Description of Integrity Management Program:

Field was constructed and in production prior to Ursa ownership. Ursa will inform the COGCC of records and or information updates as it becomes available.

Construction method used for all public by-ways, road crossings, sensitive wildlife habitats, sensitive areas and natural and manmade watercourses (i.e., bored and cased or bored only)

Field was constructed and in production prior to Ursa ownership. Ursa will inform the COGCC of records and or information updates as it becomes available.

PRODUCED WATER TRANSFER SYSTEM REALIGNMENT

Date: 09/11/2019

Description of Realignment:

Water line segment BM-W-5-7-95-T has been abandoned. The segment is a part of the BM Water System. (Only this segment was abandoned).

- The entire line was de-energized and drained, no liquids/pressure remaining in line.
- Pipeline was dug below 3' of surface
- Interior was plugged with concrete of over 3', we also used a "plug" to ensure concrete did not "run" on us and we have a fully compacted 3+' of concrete

OPERATOR COMMENTS AND SUBMITTAL

Comments Water line segment BM-W-5-7-95-T has been abandoned. The segment is a part of the BM Water System. (Only this segment was abandoned).

- The entire line was de-energized and drained, no liquids/pressure remaining in line.
- Pipeline was dug below 3' of surface
- Interior was plugged with concrete of over 3', we also used a "plug" to ensure concrete did not "run" on us and we have a fully compacted 3+' of concrete

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
