**General Comment:**

On 11/4/2020, Reclamation Specialist Trujillo conducted a final reclamation for the abandoned SG 8511E-34 E34496 well on Caerus Piceance's SG E34 496 Location.

It was observed that this well does not meet COGCC 1004 requirements.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Operator submitted Form 6(s) #401931902 stating well was PA 2/7/2019. Pursuant to 1004.a, all cellars shall be backfilled, and associated surface equipment removed within 3 months of plugging the well, or 5/7/2019.

It was observed in this inspection that this well does not appear to have been reclaimed pursuant to Rule 1004.a; Records show Well location to be the 7th well from the south, of the eastern row of wells. It was observed in this area that a cellar and what appears to be a conductor setting remains in place. Equipment requires removal and area backfilled.

Corrective Action: **Comply with Rule 1004.a**Date **12/05/2020**Overall Final Reclamation **Fail**Well Release on Active Location ☐Multi-Well Location ☐**Attached Documents**You can go to COGCC Images (<https://cogcc.state.co.us/weblink/>) and search by document number:
