On November 6, 2020 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the BP Spill/Release Point ID #478491. For more information regarding this release, please refer to document #402526139.

A BP representative was on site during this inspection. The landowner was present during this inspection and had inquired about what had occurred and what sampling and analysis would be conducted.

A ten by six foot hole was observed with fluids present along the ROW. Evidence of flow towards a drainage to the south was observed. Initial reports state that the fluids entered the Pine River via this drainage.
