Producing Well									
Comment:	Producing. Well had an audible leak from 80' away. Master valve was closed at 10:04AM. Operator was contacted at 10:40AM after well gas had subsided and pressure was dead on the flowline. Inspector left a message to return the call in regards to the well leaking and being shut it. Tom Spring returned the call at 1:55pm, with a message saying he would send a pumper to the wellhead to see whats going on
