Reclamation Specialist	<p>State.co.us Executive Branch MailCosta - DNR, Ryan                      Final Reclamation Variance Requests - Kerr Mcgee - Four locations                      Arthur - DNR, Denise Tue, Nov 24, 2020 at 5:10 PM                      To: Mike Leonard - DNR , Ryan Costa - DNR , "Binschus - DNR, Chris"                      Dear Mr. Leonard,                      COGCC (Staff) has conducted a detailed assessment of the below surface owner final reclamation variances per the 1001.c rule and have found that the requests are sufficient and recommends approval. Staff finds that, in their current form, they are protective of public health, safety, welfare, and the environment, with the below conditions of approvals. Below is a summary of the locations that KERR MCGEE OIL &amp; GAS is requesting a 1001.c variance.                      HSR-STUBBEN #11-26A – Location ID: 327214 - Document #402485208 - Plugged and Abandoned 1/2/2020                      Requesting a variance of select requirements of rule 1004.a, c. (2), to not reclaim the access road. The road appears to continue past the location for agricultural use.                      COGCC Staff recommends approval of the variance with the following COA's:                      COA #1 - Continue to monitor and manage the access road for erosion control and weed control until final reclamation is passed.                      COA #2 - All corrective actions identified on a field inspection report must be performed by the corrective action date until final reclamation is passed.                      COA #3 - The location and all associated oil and gas disturbances not included in this variance request remain subject to COGCC 1000 series rules.                      Staff believes there is no further action required by the Upper Management unless you would like additional information or any action to occur on staff's part. Please let us know if you would like staff to set up additional communications with you regarding the variances.                      Best regard, Denise T.
