General Comment:

COGCC Inspection Report Summary
 On Friday 12/1/20 at approximately 1100, I, Inspector Scott Ramsey, conducted a routine inspection at URSA O'Toole A, at Location # 335541 in Garfield county Colorado.
 While there, I observed normal production operations. All meters have been calibrated on location within the past year.
 During this inspection the following possible compliance issues were observed:
 • Location shows signs of lack of stabilization BMP's in some areas (rutting is present) BMP's require maintenance which in turn can lead to tracking
 • Lack of stabilization on cut slopes
 • No evidence of tracking control BMP's
 • Two (2) Dead man not marked
 Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
