266001	WELL	PA	07/29/2016	GW	071-07808	DROWSEY DUCK 43-30 TR	EI

General Comment:

This is an environmental inspection to document an observed approximately 5 acre vegetation die off area located downhill and down dip from well pad. See attached photos. Due to the location and geology of the vegetation die off it is possible that die off occurred as a result of impacts from adjacent gas well or a long term leak from unlined produced water pits. Shallower rooted vegetation was not observed to be as affected by die off as deeper rooted vegetation. See corrective actions.

Corrective Action:

Date: _____

Overall Good: ☐**Spills:**

Type	Area	Volume		
Produced Water	WELLHEAD	<= 1 bbl		
Comment:	Slow drip leak observed at wellhead. Leak is not reportable under Rule 906.			
Corrective Action:	Securely fasten all valves, pipes, and fittings to ensure good mechanical condition, inspect at regular intervals and maintain in good mechanical condition per Rule 605.d.			Date: 12/11/2020

In Containment: No

Environmental**Spill/Remediation:**

Comment: Approximately 5 acre vegetation die off area located downhill and down dip from well pad. Due to the location and geology of the vegetation die off it is possible that die off occurred as a result of impacts from adjacent gas well or a long term leak from unlined produced water pits.

Corrective Action: Submit a Form 27 Site Investigation plan to investigate source of vegetation die off to area Environmental Protection Specialist Jason Kosola. The plan should include soil sampling for table 910-1 Inorganics in Soils constituents. A minimum of 1 background and 10 discrete soil samples at depths up to 18 inches deep should be obtained. Corrective action date is for submittal of Form 27.
