General Comment:

This is a Follow up to Insp Doc#692402602 Dated 10/20/20, a Reclamation & Stormwater focused Inspection. This Location, built in 2015, not yet Drilled, has an Approved Delayed Interim Reclamation Variance Request (Doc#401306982). Seventeen XX Wells related to this Location had Permits Refiled and Approved 3/15/19. One Permit was Abandoned in 2019.

CA at site has not been resolved. It may be that Operator did not note specific description and photos of Noxious weeds; different than general debris weed problem at site. Interim/ pasture areas (where Noxious weeds are located would not be appropriate for bare ground controls)

Comment

Noxious Weed, Knapweed noted at South end of pad on either side of Access road, & on pad perimeter in pasture area remains; these are mature seeded plants that have not been removed since previous Insp.

Weeds have been controlled on Pad area and in immediate BMPs.

Corrective Action

Control Noxious Weeds. If weather permits treat in Fall 2020; continuing monitoring & treatment in growing season 2021.
