Comment: This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within three months of plugging on cropland. The removal of all equipment has not been performed and final reclamation has not been completed. Crop areas are planted in winter wheat. Winter wheat is typically planted in September, allowing the Operator to conduct final reclamation activities. Refer to the attached inspection photos.

Corrective Action:	<p>Comply with Rule 1004 to remove all equipment (regardless of ownership) and complete final reclamation activities. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.</p> <p>Corrective action date is being back dated to when all equipment and final reclamation activities should have been completed.</p>	Date	07/27/2020
