General Comment:

On 11/24/2020, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Caerus Piceance??s BIG CREEK #2-7 (PL7NE) location in Mesa County, Colorado.

The following compliance issues were observed during this inspection:
1004.e: Weed control

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Records show well was PA 10/28/2018 ; At least 2 growing seasons have pass. Final reclamation/Revegetation of the Location appears to be in process on eastern areas of the Location. Areas on the west end of the Location bare and will likely require additional reclamation work for Location to meet 1004 Standards. Evidence of equipment/vehicle travel also observed on the areas; Additional compaction alleviation may also be necessary. Continue to monitor/manage location and conduct additional reclamation as needed to ensure Location progresses towards 1004 requirements.

What appears to be Scotch thistle rosettes were observed established on the Location.

Corrective Action:

Comply with 1004.e; Conduct noxious weed monitoring and management until Location has received a passing final reclamation inspection. Due to the onset of winter conditions and plant dormancy, a corrective action date of 6/1/2021 is being applied to allow for additional weed management activities to be conducted within the 2021 growing season.

Date **06/01/2021**
