CORRECTIVE ACTIONS:

1 ☒ CA# 145034

Corrective Action: Comply with Rule 1003.b and conduct reclamation on areas not needed for production and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local soil conservation district. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage interim areas until Final Reclamation has passed. A CA date of 6/2/2019 is being provided as interim reclamation was required by this date.

Date: 06/02/2019

Response: CA COMPLETED

Date of Completion: 12/30/2020

Operator  
Comment:

A Form 4 interim reclamation variance request has been submitted for the 697-03-07 pad. See attached Form 4

COGCC Decision: **Not Approved**

COGCC  
Representative:

Inspector acknowledges Laramie Energy LLC's intent to pursue a variance. However, unable to approve resolution as the response of "Corrective Action Complete" indicates that the corrective actions from the inspection report has been addressed. The corrective action also required additional reclamation work to be conducted along access road, which would not be subject to the interim reclamation variance request.

Please note that until a variance request has been submitted and approved, corrective action(s) and date(s) remain applicable. Also, be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if the request is denied.
