CORRECTIVE ACTIONS:

2 ☒ CA# 140529

Corrective Action: Control weeds at the appropriate time, and no later than 11/1/2020. Per CSU extension, control of Russian knapweeds requires a multi-pronged treatment approach as a single control strategy will not likely be sufficient. Areas treated for Russian knapweed should be reseeded with desirable perennial grasses in the fall to compete with the treated knapweed.

Date: 11/01/2020

Response: CA COMPLETED

Date of Completion: 10/21/2020

Areas where Russian Knapweed were present were sprayed and mowed several times throughout late summer and early fall. The infested areas were re-seeded on 10/20/2020. This site will be added to Kinder Morgan's list of sites to be monitored/sprayed on a monthly basis. Attached are the application records, seed tag and photo log.
