Operator Comments:

Confluence drilled and set surface casing on this well in March 2020. Later in 2020 the decision was made to not drill the production hole on this well and to change another well's name to Silverton 5-2-4L. As such, we're requesting this name be changed to Silverton 5-2-4L-DNU, and Confluence will proceed with P&A'ing the surface hole for the subject well in the near future. Thank you!

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
