**General Comment:**

This is a reclamation inspection of the Flank #21 well site which was plugged and abandoned on 5/22/2014.  
The location is not in compliance with the Final Reclamation requirements.  
See attached photos and additional details within this report.

**COGCC Comments**

Comment	User	Date
All disturbed areas must be recontoured, properly decompacted by cross ripping to a depth of 18 inches, have an adequate seedbed prepared, and then seeded with a seed mixture that reflects the surrounding vegetation. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Continue to monitor and manage this site until Final Reclamation has Passed.	CostaR	01/04/2021
