Off-Location Flowline

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and

Operator Information

OGCC Operator Number: 10575 Contact Person: Nathan Bennett
Company Name: 8 NORTH LLC Phone: (720) 354-4616
Address: 370 17TH STREET SUITE 5200 Email: nbennett@extractionog.com
City: DENVER State: CO Zip: 80202
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes ☒ No ☐

OFF LOCATION FLOWLINE

FLOWLINE ENDPOINT LOCATION IDENTIFICATION

Location ID: 317545 Location Type: Production Facilities
Name: PETERS-612N61W Number: 33SESE
County: WELD
Qtr Qtr: SESE Section: 33 Township: 12N Range: 61W Meridian: 6
Latitude: 40.960080 Longitude: -104.203130

Description of Corrosion Protection

8 North's corrosion procedures are detailed in its Flowline Management SOP. Coating materials will be used that minimize internal and external corrosion, such as internally coated pipe or stainless steel for water service, and externally coated FBE on all buried steel pipe. If flowlines are repaired due to corrosion, Extraction will investigate the failure, promptly respond with the appropriate remedial actions and determine the root cause and apply corrective actions as necessary. Extraction retains records of its chemical program in the form of Failure Analysis Reports, records of chemical invoices and chemical delivery.

Description of Integrity Management Program

8 North's integrity management program is detailed in its Flowline Management SOP, which covers flowline installation, operation, maintenance, inspection, testing, and repairs. Prior to beginning any project involving flowlines, Extraction ensures the project plans, flowline installation, flowline maintenance (including repairs) and all flowline inspection and testing projects meet the requirements of the Flowline Management SOP. All pressure tests on flowlines will be conducted by an independent, third party qualified to do such testing. Precautions shall be taken to protect employees and the general public.

Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.

Flowline Description and Testing

Type of Fluid Transferred: Multiphase Pipe Material: Carbon Steel Max Outer Diameter:(Inches) 2.375
Bedding Material: Native Materials Date Construction Completed: 06/01/1970
Maximum Anticipated Operating Pressure (PSI): 190 Testing PSI: 204
Test Date: 09/17/2018

OFF LOCATION FLOWLINE Abandonment VerificationDate: 03/02/2020**Abandonment Verification**

The abandoned Off-Location Flowline was located within the jurisdiction(s) of the following local government(s).

(No Jurisdiction)

Description of Abandonment Verification:

The flowline corridor was daylighted along the entire length of the flowline. Approximately 620' of 3" steel flowline (buried +/- 4' deep) was removed in its entirety. The trench was backfilled and land surface was graded.

OPERATOR COMMENTS AND SUBMITTAL

Comments This form is being submitted as a December 1, 2020 update to include a gis shapefile and description of the integrity management plan and corrosion protection plan for this flowline.

UPDATED INFORMATION as of 09/02/2020.

Per comments received from Steven Wheeler, the following information was added and/or changed on this Form 44:

- Submitter changed to N. Bennett (same as contact) from E. Martinez.
- Abandonment verification for Flowline #12307170 (previously serviced Peters #1 well (API #05-123-07170)).
- Attached updated GIS Shapefile for 12307170FL attributed to show flowline has been removed.
- Attached recent PRESSURE TEST for 12307170FL.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.

Signed: _____ Date: 09/02/2020 Email: nbennett@extractionog.com
