Matt,

Thank you for your email confirming that Larimer County is waiving its right to precede COGCC in its siting disposition for those applications submitted to COGCC prior to April 6, 2020. COGCC will resume processing the permit applications for those proposed Oil and Gas Locations and wells in Larimer County.

Best regards,
John

John,

On April 6, 2020 Larimer County adopted new regulations for Oil and Gas operations that fall into our jurisdiction. These regulations were NOT made retroactive to permits filed with the COGCC before our adoption. Hence, any permits that were in the COGCC permitting process prior to April 6, 2020, do not need to follow our permitting process. Furthermore, with the exception of the Kaufman permits we do not have any issue with the state issuing permits on those applications that we previously reviewed and responded to, so long as the COGCC director has evaluated them pursuant to current state statutes.

Please contact me if you have further questions.

Respectfully

Matt Lafferty
Larimer County Oil and Gas Local Government Designee
