Photo 1. View of the project area from the southeastern corner facing center.

Photo 2. View of the southern project area from the southeastern corner facing westward. Revetigation is progressing, largely with grasses such as sand dropseed, western wheatgrass, and smooth brome.

Photo 3. View of Scotch thistles within the project area. Approximately 100 individuals observed.

Photo 4. View of the reference area comprised of mixed ponderosa pine and pinyon/juniper woodland with gambel oak and mountain mahogany shrubs, and grasses/forbs such as squirreltail and Colorado rubberplant.
