**General Comment:**

On 1/19/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Windsor Energy Group's University of Texas #24 location in Rio Blanco County, Colorado.

This inspection is a follow up to FIR Nos. 680101534 dated 2/15/2017, #696201071 dated 3/6/2020, and #696201338 dated 6/3/2020 to document compliance for the following corrective actions:

-Perform Final Reclamation per COGCC 1004 rules by 6/1/2017

It was observed that the Location remains out of compliance with 1004 Rules, and corrective actions.

The following compliance issues were observed during this inspection:

Gravel/Road base remains evident on access road; Unable to find evidence that compaction alleviation (cross-ripping to a minimum depth of 18 inches) has been conducted on the Location and access road; Access road has not been recontoured/regraded; Trash debris/poles/barrels/etc.. previously documented have not been removed.

Due to the nature, extent, or duration of this alleged rule violation, Location is being referred for enforcement.

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.
