Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

A currently unknown volume of produced water was released from a separator dumpline. The release day lighted on the pad surface and the operator immediately shut in the line. Additional environmental assessment will take place following utility locates. The impacted soil will be removed and hauled to a COGCC approved disposal facility. Confirmation soil samples will be collected and submitted for laboratory analysis. Analytical results and an updated release volume will be provided in a supplemental Form 19.
