General Comment:

COGCC Inspection Report Summary

On Monday 1/20/2021 at approximately 1130, I, Inspector Scott Ramsey, conducted a routine inspection at Grizzly Specialty 11C, at Location # 335162 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year.

During this inspection the following possible compliance issues were observed:

- Provide proof of tracking control BMP's
- Location shows signs of lack of stabilization BMP's in some areas (rutting is present) BMP's require maintenance
- Tank battery signage is in front of separators, signage needs to be at tank battery.

Refer to photograph of observed compliance issue.

At time of inspection tank battery signage was in front of separators, pumper arrived and was able to move signage to tank battery therefore no C/A is required.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
