**General Comment:**

On 1/19/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Eagle Operating Inc's CAL-UP #37-E location in Rio Blanco County, Colorado.

This inspection is also a followup to #692401236 to document compliance with the following corrective actions:  
 -Comply with 1004 Rules

The following compliance issues were observed during this inspection:  
 1004

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

FIR# 692401236 observed subsidence, remaining riser, debris and noxious weed issues on the Location. FIR required Operator to comply with 1004 Rules.

Limited visibility due to snow cover prevented Reclamation Specialist from conducting an accurate assessment of the reclamation, and determining if noxious weeds and debris issues have been addressed. It was observed in this inspection that the riser identified in the previous inspection has been removed. It was also observed that subsidence concerns remain evident at the base of the well marker.

This corrective action has not been addressed entirely and remains applicable. A followup inspection will be conducted to determine compliance with the remaining CAs and COGCC Rules

Corrective Action:

Corrective action from Inspection #692401236:

Perform Final Reclamation per COGCC 1004 Rules, including repairing subsidence, removing riser, controlling Noxious weeds and revegetating with desirable species.

Date 06/15/2020

Overall Final Reclamation
