**General Comment:**

On 1/28/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection Chevron USA Inc's McLaughlin AC #40 location in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:  
1004.a

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

VEGETATIVE COVER \_\_\_\_\_

Comment:

It was observed in this inspection that various pipe debris, wood debris remain on the southern area of the Location. Utility pole equipment on, and leading to the Location not removed. See photos 5, 6.

Equipment associated with a pipeline observed on the east/southeastern areas of the Location. See photos 7, 8. Records show well PA 2010. Limited visibility due to snow cover prevented Reclamation Specialist from conducting an accurate assessment of the reclamation; vegetation observed indicate Location is progressing towards COGCC 1004 revegetation standards.

Corrective Action:

Comply with Rule 1004.a: Remove pipe/wood debris. Remove utility equipment on and leading to Location.
