Photo 1. View of the project area from the northwestern corner facing center.

Photo 2. View of the western project area from the northwestern corner facing southward. Location largely snow covered. Taller perennial vegetation such as western wheatgrass and smooth brome observed through snow. Approximately 200 Russian knapweeds observed within the western project area.

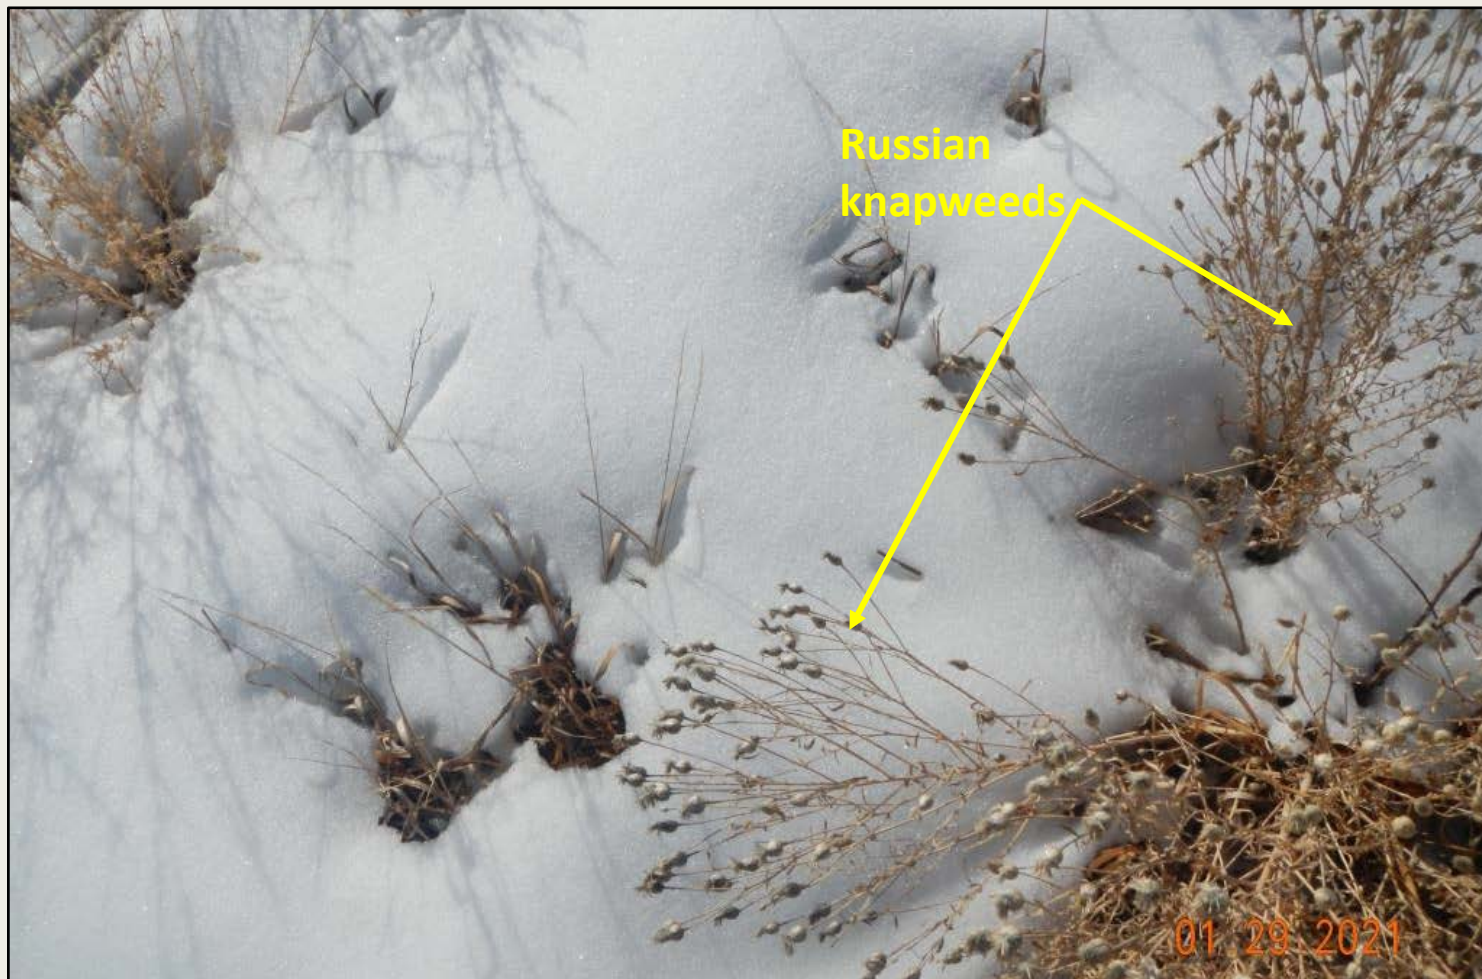

Photo 3. View of Russian knapweeds within the project area.

Photo 4. View of the southern project area from the southern edge facing westward.

Photo 5. View of the reference area comprised of open pasture, largely snow covered at this time.
