Gentlemen:

You approved the subject wells on January 5, 1978; as drilling of these wells has been delayed we wish to have an extension beyond the usual 120 days for drilling to commence.

Kenai Drilling, contractor for the wells, will commence drilling the Zschach 4-13 by May 15th and continue drilling in the order given above.

As for the McWilliams 8-31 well which was also approved on January 5, 1978 for drilling, it has been dropped from the drilling schedule.

Yours very truly,

CHANDLER & ASSOCIATES, INC.
