Denver, Colorado 80203

Gentlemen:

We have been informally advised that a Chandler Drilling Company is drilling an oil well on the Northwest quarter of the Northwest quarter of Section 13, Township 8 North, Range 90 West, Moffat County, Colorado. Empire Energy Corporation is the owner of the right to mine and produce coal, lignite, and other minerals except oil and gas on this property by virtue of coal and lignite leases obtained from the landowners.

We would appreciate your furnishing us a copy of the permit application for this well so that we can definitely determine the party drilling it and its location. If the permit application does not name the operator or lessee for whom the well is being drilled by Chandler Drilling as contractor, and you know who the operator is, we would also appreciate learning that.

Yours very truly,

J. Halbert Woods
