**General Comment:**

On 2/1/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Chevron's Larson M B C-1 location in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:  
1004.a

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Inspector Name: Trujillo, Aaron

Records show well PA 1985. Since plugging, Chevron constructed a new location and drilled the M B Larson C 1 AX (103-10763) within the same area as the Larcon M B C-1.

It was observed in this inspection that various concrete and pipe debris (possible remnants of the well marker) associated with the PA'd well was removed and placed on the southern areas of the "C 1 AX" during pad construction. See attached photos.

Corrective Action:

Comply with Rule 1004.a and remove concrete and pipe debris remaining on the Location.
