Comments:

Devon Energy Production Company, L.P. as successor-in-interest to Mitchell Energy Corporation has completed final reclamation of the UPRR Carlson 21-1 well site to Landowner's satisfaction. The well location was plugged and reclaimed in 1978, however rig anchors and miscellaneous trash was left at the site. This was removed in January 2021 and all disturbance at the site (rig anchors and trash - oilfield and otherwise) has been removed. During this time, vegetation at the site has regrown past the 80% threshold specified in 1004.c.(2) and is ready for release due to reclamation completion.

As this is Devon's last location holding the statewide bond, Devon desires to have this location inspected and signed off as soon as possible so this location and the Devon/Mitchell corporate files can be closed out both for the COGCC and Devon's benefit.
