**SUNDRY NOTICE**

Submit a signed original. This form is to be used for general, technical and environmental sundry information. For proposed or completed operations, describe in full in Comments or provide as an attachment. Identify Well by API Number; identify Oil and Gas Location by Location ID Number; identify other Facility by Facility ID Number.

OGCC Operator Number: 10669 Contact Name JENNIFER LIND  
 Name of Operator: NICKEL ROAD OPERATING LLC Phone: (303) 406-1117

OTHER CHANGES

**REMOVE FROM SURFACE BOND** Signed surface use agreement is a required attachment

**CHANGE OF WELL, FACILITY OR OIL & GAS LOCATION NAME OR NUMBER**

From: Name BLEHM PAD Number Effective Date:

To: Name Number

**ABANDON PERMIT: Permit can only be abandoned if the permitted operation has NOT been conducted. Field inspection will be conducted to verify site status.**

WELL: Abandon Application for Permit-to-Drill (Form2) – Well API Number has not been drilled.

PIT: Abandon Earthen Pit Permit (Form 15) – COGCC Pit Facility ID Number has not been constructed (Permitted and constructed pit requires closure per Rule 905)

CENTRALIZED E&P WASTE MANAGEMENT FACILITY: Abandon Centralized E&P Waste Management Facility Permit (Form 28) – Facility ID Number has not been constructed (Constructed facility requires closure per Rule 908)

OIL & GAS LOCATION ID Number:

Abandon Oil & Gas Location Assessment (Form 2A) – Location has not been constructed and site will not be used in the future.

Keep Oil & Gas Location Assessment (Form 2A) active until expiration date. This site will be used in the future.

**Surface disturbance from Oil and Gas Operations must be reclaimed per Rule 1003 and Rule 1004.**

**REQUEST FOR CONFIDENTIAL STATUS**

**DIGITAL WELL LOG UPLOAD**

**DOCUMENTS SUBMITTED** Purpose of Submission:

RECLAMATION

**INTERIM RECLAMATION**

Interim Reclamation will commence approximately

Per Rule 1003.e.(3) operator shall submit Sundry Notice reporting interim reclamation is complete and site is ready for inspection when vegetation reaches 80% coverage.

Interim reclamation complete, site ready for inspection.

Per Rule 1003.e(3) describe interim reclamation procedure in Comments below or provide as an attachment and attach required location photographs.

**Field inspection will be conducted to document Rule 1003.e. compliance**

**FINAL RECLAMATION**

Final Reclamation will commence approximately

Per Rule 1004.c.(4) operator shall submit Sundry Notice reporting final reclamation is complete and site is ready for inspection when vegetation reaches 80% coverage.

Final reclamation complete, site ready for inspection. Per Rule 1004.c(4) describe final reclamation procedure in Comments below or provide as an attachment.

**Field inspection will be conducted to document Rule 1004.c. compliance**

Comments:

**ENGINEERING AND ENVIRONMENTAL WORK**

NOTICE OF CONTINUED TEMPORARILY ABANDONED STATUS

Indicate why the well is temporarily abandoned and describe future plans for utilization in the COMMENTS box below or provide as an attachment, as required by Rule 319.b.(3).

Date well temporarily abandoned \_\_\_\_\_ Has Production Equipment been removed from site? \_\_\_\_\_

Mechanical Integrity Test (MIT) required if shut in longer than 2 years. Date of last MIT \_\_\_\_\_

SPUD DATE: \_\_\_\_\_

**TECHNICAL ENGINEERING AND ENVIRONMENTAL WORK**

Details of work must be described in full in the COMMENTS below or provided as an attachment.

**H2S REPORTING**

**Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.**

**Gas Analysis Report must be attached.**

H2S Concentration: \_\_\_\_\_ in ppm (parts per million) Date of Measurement or Sample Collection \_\_\_\_\_

Description of Sample Point:

\_\_\_\_\_

Absolute Open Flow Potential \_\_\_\_\_ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

\_\_\_\_\_

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: \_\_\_\_\_

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: \_\_\_\_\_

COMMENTS:

### **Best Management Practices**

<b>No</b>	<b><u>BMP/COA Type</u></b>	<b><u>Description</u></b>
1	Noise mitigation	Operator will complete a site-specific sound study at this pad location prior to commencing pad construction activities. Sound walls (typically 32' in height) will be installed in accordance with sound study recommendations (at a minimum walls will be installed on the north, south and west sides of the pad to mitigate nuisance conditions for nearest building units). Sound walls will be in place prior to the commencement of drilling operations and will remain in place throughout the completion activities.
2	Odor mitigation	Odor Mitigation BMP: Operator will use Group I OBM. Odors will be managed by using 1) a closed loop OBM system, 2) a closed loop solids control system, 3) odor neutralizers, and 4) cuttings will not be allowed to accumulate on Location. Settling time and resulting odors will be minimized through, at a minimum, daily removal and daily offsite disposal of cuttings at a commercial facility. Should odor complaints persist during active drilling operations, operator will employ drying shakers and screen pulse for cuttings to return the maximum amount of fluid back into the closed-loop mud system rather than settling in the cuttings. Should odor complaints continue further, drilling operations will cease until such time the operator employs odor neutralizing additives to the OBM system and / or switches to an alternative OBM system with lower odor potential.

**Operator Comments:**

Updated Noise and Odor BMP language updated per COGCC request received via email on 2/4/2021 - see 'BMP' tab.

Town of Severance Consultation / Communication efforts regarding WCR 19 Haul Route:  
Nickel Road has been engaged with the Town of Severance LGD / Town Planner since 4/8/19 regarding coordination of development plans in this area. Town of Severance was specifically engaged on the Blehm Pad project (relocated from the withdrawn 'Moore Pad' location) on 9/9/20 via a courtesy referral through the 1041WOGLA process at Weld County. Per referral comments received from the Town on 9/24/20 requesting the execution of a Road Maintenance Agreement (RMA), Nickel Road engaged the Town in discussion regarding the WCR 19 RMA on 10/5/20, with a followup meeting held on 10/27/20 and an onsite visit with the Town of Severance Public Works representatives on 11/17/20. A final meeting on the RMA was held on 1/13/21 to finalize terms of the agreement and the final RMA was executed by Nickel Road and the Severance Town Administrator on 1/19/21.

Although Nickel Road had already engaged with the Town prior, Weld County issued the approved 1041WOGLA permit for the Blehm location on 12/10/20 with a COA requiring the execution of an RMA prior to commencement of construction activities on the pad. This COA was fulfilled on 1/21/21 per the Sundry Form submitted to the Weld County Oil and Gas Energy Department with confirmation of the executed RMA.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
