VEGETATIVE COVER _____

Comment:

Corrective Action:	Surface Owner has changed since previous inspection. Area where gravel pile was located is now Hay & equipment storage. Storage caches are also in other areas of Location. Horses are pastured at site. It does not appear that uniform desirable vegetation has established. Weeds could not be assessed. Assessment needs to be conducted in growing season; though visible elements now point to a Failing Reclamation Status. Surface Owner, present during inspection, did not seem adverse to excluding horses (fencing out) to insure success of further reclamation efforts.	Date 04/01/2021
	Assess vegetation in Spring 2021; reseeding / interseeding/ applying remedies as indicated to establish uniform desirable vegetation across all disturbance areas to 80% of reference area requirement.	
Overall Final Reclamation <input type="checkbox"/> Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>		

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Comment: Stormwater controls will need adjustment/maintenance and work to insure stormwater flow to BMPs is not interrupted. This work can be conducted in conjunction with reclamation activities.						
Corrective Action: Install or repair sufficient/effective BMPs in accordance with, and monitoring per Good Engineering Practices per Rule 1002.f						Date: 04/01/2021
Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT
