It was observed in this inspection that various pipe debris, wood debris remain on the southern area of the Location. Utility pole equipment on, and leading to the Location not removed. See photos 5, 6.

Equipment associated with a pipeline observed on the east/southeastern areas of the Location. See photos 7, 8. Records show well PA 2010. Limited visibility due to snow cover prevented Reclamation Specialist from conducting an accurate assessment of the reclamation; vegetation observed indicate Location is progressing towards COGCC 1004 revegetation standards.

Corrective Action: **Comply with Rule 1004.a: Remove pipe/wood debris. Remove utility equipment on and leading to Location.**
