OPERATOR COMMENTS:

The location and surrounding area outside of location berm was inspected on April 9, 2020 for evidence of the release noted on the original Form 19 submittal. No evidence of the release was noted on or off location. Some small areas of surface salt crusting was noted on pad surface.

A photographic record is attached. Based on these site observations Chevron requests closure of this spill.

Chevron is requesting closure of Spill ID 401943888 under Table 910-1 due to the initial release occurring during Table 910-1 rule.

Samples were collected prior to the Table 915 adoption.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
