2 CA# 145913

Corrective Action: Properly dispose of oily waste.

Date: 02/15/2021

Response: CA COMPLETED

Date of Completion: 02/01/2021

Operator Comment: We are requesting an extension to correct the items noted on the report due to snow fall totals at the well site. While disposal of oily waste has begun, snow has halted the work at this time. Currently, oily waste will be contained in secondary and tertiary confined areas and not leeching into soil. In an effort to maintain economic stability and not have to perform a task twice we are requesting an extension so it will coincide with the work to be done on the bradenhead access. Work will be performed as soon as snow totals allow. Please see the attached photo.
