**General Comment:**

COGCC Inspection Report Summary

On Thursday 2/4/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at Ursa Dixon B, at Location # 311696 in Garfield county Colorado.

While there, I observed normal production operations. All meters calibrated on location within a year. Some of the C/A's from previous inspection document # 700701953 have not been completed. Operator has provided documentation of their Best Management Practices for Pad Surface Stabilization.

During this inspection the following possible compliance issues were observed:

1. Tank battery signage is missing information and located at entrance
2. Location still shows signs of lack of stabilization from previous inspection on pad and cut slopes.
3. Unmarked dead man from previous inspection

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
