Photo 1. View of the project area from the southeastern corner facing center.

Photo 2. View of the eastern fill slope from the northeastern corner facing southward. Vegetation is progressing largely with perennial grasses such as crested wheatgrass, smooth brome, and western wheatgrass.

Photo 3. View of musk thistles along the access road. Approximately 300 individuals observed.

Photo 4. View of the reference area comprised of pinyon and juniper woodland with understory of sagebrush, mountain mahogany, and grasses/forbs such as sandberg bluegrass and threadleaf sunflower.
