<p>THIS IS A FOLLOW UP INSPECTION TO PREVIOUS INSPECTION DOC#: 679603398. One out of two corrective actions were resolved. The remaining unresolved corrective action has been re-assigned to this location with its original corrective action date. COGCC's new rule reflects previous rule assigned in previous inspections in the narrative down below.</p> <p>COGCC Inspection Report Summary **Weather Conditions: cloudy, dry ground On Thursday, February 4, 2021 at approximately 13:15, I, Inspector Brittani Santistevan, conducted an on-site inspection at STRONG 1-7 (KP Kauffman), at location #: 319516 in WELD COUNTY Colorado. While there, I observed a shut in wellhead. During this inspection the following possible compliance issues were observed: 1. It appears stained soil has not been removed from underneath master valve. Per Rule 608.e. all production facilities, valves, pipes, fittings and vessels will be securely fastened or sealed, inspected at regular intervals and maintained in good mechanical condition. (Corrective Action Date: September 1, 2020) See attached photo #2.</p> <p>A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.</p>	santistb	02/04/2021
