FACILITY - API Number: 05-045-00 Facility ID: 334646

Facility Name: C&C Energy GM Number: 313-12 Frac Pad
Qtrqtr: NWS Sec: 12 Twp: 7S Range: 96W Meridian: 6
W
Latitude: 39.449631 Longitude: -108.065390

CORRECTIVE ACTIONS:

1 CA# 146102

Corrective Action: Install, maintain or provide documentation of post construction management plan or BMP's

Date: 03/09/2021

Response: CA COMPLETED

Date of Completion: 01/28/2021

Operator Comment: As part of the TEP storm water management program, TEP maintains the Piceance Basin Storm Water Manual of Best Management Practices (BMPs) that contains a compendium of BMPs that are used to address post construction sediment stabilization practices. The BMP manual has been prepared in accordance with good engineering practices, and BMPs are selected and implemented to meet the unique needs of each individual location. An example BMP from the BMP Manual is attached. Ruts on the pad will be removed by dragging the pad with soils thaw out and muddy conditions subside.

COGCC Decision: **Not Approved**

COGCC Representative: Attachment not representative of GM313-12 Frac Pad

OPERATOR COMMENT AND SUBMITTAL

Comment: Corrective is complete. Ruts on pad will be removed by dragging when temperatures warm up, the mud subsides, and soil conditions allow.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
